Practice Policies and Procedures:

Welcome to Envision Behavioral Health PLLC (EBH), office of Drs. Todd and Jessica Derreberry. Please read the following information carefully so you have a clear understanding of our policies concerning communication, fees, insurance, confidentiality, etc. This acknowledges that we have provided you the opportunity to review our Practice Policies and Procedures as is required by federal law. Please take your time to review and fully understand this document. Please sign and date at the end to indicate that you have understood and agree. Thank you for your cooperation.

Professional Services:

At Envision Behavioral Health PLLC, we realize how stressful it can be to establish care with a new physician, especially when discussing your mental health. As such, we aim to provide a patient-centered, nonjudgmental environment where you can feel comfortable discussing your concerns. While we offer multiple services to our patients, the greatest service you will receive from our office is healthcare with a personalized touch.

As we are a small practice, we have the ability to get to know our patients better than the larger clinics. We offer a thorough diagnostic evaluation in a comfortable setting. At the conclusion of your first visit we will share our thoughts on your diagnosis, answer your questions, and discuss potential evidence-based treatments. We also offer a variety of follow-up visits to suit your needs. Whether you prefer a 25 minute follow-up visit or a more comprehensive 40 minute or 55 minute follow-up visit we can work to meet your needs. We also offer some evening and weekend hours, a service that many mental health offices cannot accommodate.

Services include assessment, diagnosis, on-going medication management, and supportive and behavioral therapy. We treat a variety of mental health conditions including depression, anxiety, PTSD, Panic Disorder, Obsessive Compulsive Disorder, ADHD, Bipolar Disorder, and addiction problems.
For patients who are interested, ongoing therapy is available on a case-by-case basis and is determined at the end of the assessment. Psychotherapy appointments are usually scheduled weekly or biweekly.

For your convenience, we offer telepsychiatry appointments. Through this videoconferencing service, you will be able to attend your psychiatric visit from the comfort of your home. Some insurance companies do not cover telepsychiatry visits.

We do not provide forensic services such as custody evaluations, assessments recommended by probation, ability to stand trial, legal matters of medical opinion, etc.

We do not perform disability determinations or fill out paperwork for short-term or long-term disability or workers compensation.

We do not offer neuropsychological or psychoeducational testing or evaluations for bariatric surgery.

We do not fill out paperwork for any organization unless you have been a patient for 6 months or longer or have been seen a minimum of 6 times.

We do not write letters in support of an Emotional Support Animal.

In some situations, Envision Behavioral Health PLLC, may not be able to meet your mental health needs and we will give you information where you can obtain care elsewhere. Additionally, if you feel that Envision Behavioral Health PLLC and/or your doctor is not well matched to your needs, we will be happy to provide you referrals to other mental health professionals.

*You will not become a patient at Envision Behavioral Health PLLC until both you and your physician decide together that this treatment relationship is appropriate.*
**Consent for Treatment/Treatment Issues:**

All treatment is strictly voluntary and you may choose to stop treatment at any time you wish. If you experience any problem(s) with medication and/or psychotherapy, it is your responsibility to inform your physician of the problem(s).

**Office Hours and Appointments:**

Business Hours: Office hours are from 8:30am-5pm Monday, Tuesday, Wednesday, Thursday, and Friday. We also offer Saturday hours for established patients once per month.

Appointments: Initial/consultation appointments for patients are generally 45-90 minutes. Often, the initial appointment provides enough time to complete the evaluation, but sometimes it is necessary for an evaluation to be divided between 2 or more appointments. Initiation of treatment may need to be delayed until the evaluation is complete. **Please bring all medication bottles with you to your first appointment.** If available, please bring copies of your past medical and mental health records to your appointment, including testing or laboratory work. Please have the contact information for your previous mental health providers and other physicians so that we can obtain collateral information, if needed.

Follow up appointment times are shorter in duration. Both short and long follow up appointments are available as well as appointments for psychotherapy if indicated.

Appointments are expected to start on time and end on time. Please be aware if your appointment extends beyond the allotted time for any reason, you will be charged for the additional time at the prorated hourly rate.

Appointments provide time with the doctor. **An appointment does not guarantee any specific medications, treatments, or letters.**

Unattended Children: The practice does not allow and is not responsible for unattended children in the waiting area. We apologize for any inconvenience this may cause.
No Shows/Late Cancellations/Late Arrivals:

We do not overbook appointments. Your appointment time is a reservation just for you. If you are not able to come to your appointment, please reschedule through the patient portal or leave a message on the office line during business hours to reschedule. If you contact the office within **48 business hours (excluding weekends and holidays)** of your appointment you may reschedule with no additional cost, and the appointment will be offered to someone else.

For example, if your appointment is on a Monday, the cancellation must be made by the same hour on the preceding Friday. Weekend appointments must be cancelled by the same hour on the Thursday before the appointment. If an appointment is not cancelled or rescheduled more than 48 business hours ahead, the standard appointment fee will be applied to your account. Stating that you did not receive a reminder does not exempt you from a no-show/late cancellation fee.

Should you arrive more than **10 minutes** late for any appointment, you will be asked to reschedule so that an appropriate amount of time and attention may be devoted to your care. You will still be responsible for payment of the missed session. This fee is not covered by insurance and cannot be submitted for insurance reimbursement.

For initial evaluations, EBH may require full prepayment in order to schedule the appointment. This will be charged to the credit card on file. If you miss that appointment and do not give appropriate notice, that fee is nonrefundable. If you wish to book the initial appointment again, another full prepayment may be required to schedule the second appointment. Please ensure that you give us 48 hours’ notice to reschedule your appointment. An appointment cancelled without at least a 48 hour notice is considered a No Show/late cancellation and may not be rescheduled. Failure to show for your first appointment may also result in an inability to schedule further appointments.

Failure to show for your follow up appointments (or violation of this cancellation policy) on two or more occasions may be grounds for discharge from the clinic. Note that the cancellation fee may be waived in special circumstances, determined on an individual basis (eg: medical emergency- patients may be asked
to provide documentation for the same).

For our part, we will make every effort to provide you with adequate notice if the physician will be unavailable for a scheduled appointment and will work to reschedule your appointment in a timely fashion.

**Inclement Weather Policy:**

In some cases of inclement weather (i.e., hurricane, snowstorm, ice storm under 34 degrees Farehenheit.), your appointment may need to be canceled or rescheduled. We follow the Forsyth County School System schedule for delays and closures. However, there may be some instances when we are open or operating on a normal schedule despite school closings/delays. Please call prior to your appointment if schools are closed or delayed to confirm our schedule that day.

In some cases, we may call you to request that you come in earlier or later than your scheduled time due to the weather. If your appointment is cancelled, every effort will be made to reschedule your appointment. If you need to cancel your appointment due to inclement weather, you may cancel without a fee. However, you must call or send a portal message **at least three hours before your appointment to cancel**. If you do not show up or call after your appointment time, you will be charged a missed appointment/late cancellation fee regardless of the weather.

**Communication and After-Hours Policy:**

**Electronic Communication:**

The preferred method of communication is through the secure patient portal. You will get the fastest and most complete response if you state your concern by sending a message through the portal. Please note that all communications will be added to your medical records. Messages received through the portal are checked daily during business hours Monday, Tuesday, Wednesday, Thursday, and Friday 8:30am-5pm. Messages received after hours, on weekends, or holidays are reviewed the next business day. Please allow at least 1-2 business days for a response for portal messages.
Portal communication is not for emergency or urgent issues. Please do not send us a message through the portal that is of an urgent or emergent nature. Please note if you need immediate assistance, are having suicidal or homicidal thoughts, a serious medication reaction, or any emergency, please call 911 or go to the emergency room. You may also contact Cardinal Innovations at 1-800-939-5911. They have a 24/7 crisis line.

***Please note*** A fee may be charged for clinical phone calls/portal messages between appointments. This fee is not covered by insurance. This fee does not apply to phone calls or messages strictly related to scheduling, billing, or other non-clinical questions.

We do not communicate via text or email. These communications are not protected and cannot be guaranteed as private.

**Phone Calls:**

Phone hours are Monday to Friday 8:30am – 5:00pm. Brief phone calls of 5 minutes or less are not charged. Longer, more involved calls are charged as outlined in Professional Fees. Please note that all communications will be added to your medical records.

Most routine calls are returned within **48 hours** during the above stated business hours. If you have an after hours concern that cannot wait for the next business day please call and leave a voicemail. Your call will be returned as soon as possible. For any emergencies, please do not wait for a call back. Instead, please go immediately to the emergency room or call 911. ***Please note a fee may be applied for after hours phone calls. Portal messages are not checked after hours, on holidays, or on the weekends. Please check our website for the holiday schedule. If you at any time feel that you require care that includes 24 hours per day coverage, EBH will provide information for another practice.

Please note that we do not schedule/cancel appointments or refill medications after hours, on holidays, or over the weekend.
Crisis Management:

EBH does not provide crisis management or emergency psychiatry services. If you are in crisis, are having suicidal or homicidal thoughts, or have any emergency, please call 911 or go to your nearest emergency room. You may also call 800-273-TALK, or text 741741. You may also contact Cardinal Innovations at 1-800-939-5911 to speak to someone. This phone line is open 24/7.

Patients who have Carolina Behavioral Health Alliance insurance may also contact their after hours emergency line at 1-800-475-7900. This toll free number is answered by a live person and is staffed after hours for emergencies.

Hospitalization:

The physicians at EBH do not have admitting privileges. If there is a crisis regarding your safety, you will be directed to the closest hospital emergency room for evaluation and possible admission.

Patient Portal:

Through the patient portal we may send you questionnaires or other information prior to your appointment. Please complete any forms/questionnaires at least 24 hours prior to being seen for a follow up appointment. For an initial evaluation, ALL paperwork/forms must be completed within 3 days after the request is accepted or the appointment may be cancelled. Again, the patient portal is not for urgent/emergency messages.

Controlled Substance Policy:

We are generally inclined to prescribe non-habit forming medications. A habit forming medication is often described as a “controlled substance”. If a controlled substance is prescribed it may be written for a limited quantity and/or a short
duration. If a controlled substance is prescribed please be aware that 90 day supplies may not be provided.

EBH generally does not:

- Prescribe benzodiazepines to patients who are taking daily opiate pain medication.

- Prescribe benzodiazepines to patients who are taking stimulant medication.

- May not prescribe stimulant medication (Adderall, Ritalin, etc) unless appropriate diagnostic testing has previously been done and available for review.

- Prescribe controlled substances to patients who use marijuana or illicit substances.

- Will not replace lost or stolen prescriptions of controlled substances without a police report.

- Prescribe stimulant medications to patients with a history of hypertension unless blood pressure is within normal limits and consistently under good control.

We reserve the right to require random urine drug screens/saliva tests to obtain further refills for any controlled substance. We may also request you bring in your medication for a pill count. If you are prescribed controlled substances and do not comply with a pill count or drug screen request within 48 hours, you may be terminated from the practice.

Please note it is a **felony** to accept a controlled substance prescription from the same (or similar) class from any other prescriber without both of those prescribers’ consent and notification. This is referred to as “doctor shopping”. If you receive controlled substances from another prescriber and do not notify the clinic, you will be terminated from the practice.
**Professional Fees:**

Each physician at EBH is in-network with Carolina Behavioral Health Alliance (CBHA) and Blue Cross Blue Shield (BCBS) PPO and Indemnity plans and considered an “out-of-network” provider for all other insurances. We are **not** in-network with Blue Local, Blue Value, Blue High Performance, Blue Federal, or other restricted network BCBS plans. This means that you pay the full amount at the time of service and may then submit a claim to your insurer unless you have CBHA or BCBS. Fees are collected on the same day of the appointment, including copays. If you are not able to pay for your appointment in full prior to the start time, you will need to reschedule. The expectations in this policy also reflect any future insurance companies with which EBH may become in-network. If someone else (parent, spouse, domestic partner, etc.) is financially responsible for your expenses or carries your insurance, please share this policy with them, as it explains our practices regarding insurance billing, copayments, and patient billing.

Patients who do not have CBHA or BCBS may request an invoice to submit to their insurance company for **possible** reimbursement upon request. Insurance reimbursement depends on an individual patient’s policy terms. We are not responsible for filing or ensuring insurance reimbursements for insurance plans we do not accept. Your insurance plan is a contract between you and the insurance company and does not directly involve the doctor. Even if your insurance company reimburses you for your treatment, they may limit the amount of treatments for which you may receive reimbursement. **Some services may not be reimbursable** by insurance such as fees for filling out forms, writing letters, writing reports, etc. Please be aware insurance companies generally require some basic information about your care if you choose to seek reimbursement. Once this information is provided, it will be subject to the privacy policies of the insurance provider. Please check with your insurance company before making an appointment to determine what out-of-network benefits are available to you.
Insurance Claims:

As a courtesy, EBH will file insurance claims for CBHA and BCBS. Your insurance company, in lieu of reimbursing you directly, will pay the physician or EBH any benefits for services rendered. Your medical insurance carrier may pay less than the actual bill for services, so you may be responsible for payment of some or all services rendered. You are responsible for making available complete insurance information for accurate filing of claims. To meet this end, we require updated insurance information at each visit. Reduction or rejection of your claim by your insurance company does not relieve the financial obligation you have incurred. It is your responsibility to know and understand your medical insurance coverage. Not all services are a covered benefit in all contracts. Please call your insurance company to verify your benefits.

EBH will not be able to file claims to your insurance company unless you provide us with accurate and complete information about your insurance plan. Please review your policy carefully and be aware of any limitations on your benefits. Please be aware of your copay, coinsurance, and deductible prior to your appointment.

By signing this agreement, you authorize EBH to release all medical information necessary to your insurance company to secure payment. You also authorize payment of medical benefits to Envision Behavioral Health and your undersigned physician. You further understand your share of the cost of the services, e.g., co-payments, co-insurance, and deductibles, will be collected on the same day or service, prior to or after the visit.

Referrals and Authorizations:

As a specialist, some insurance companies require that prior to any visit you must obtain an authorization or referral from your primary care physician. It is your responsibility to know if this is required by your insurance and, if so, to obtain the referral. If this is not done 48 hours before your appointment, you will be asked to either reschedule your appointment or pay the full amount for all services on the day of service. If your insurance company rejects a claim because a valid authorization or referral was not in place, the full cost of the visit will be your responsibility.
Payment for Service

Please note that you are ultimately responsible for all charges incurred for your treatment or the treatment of those for whom you are responsible. If for any reason your insurance company, or other third-party payer (such as a divorced spouse or lawyer), does not promptly reimburse EBH for services rendered, you will be responsible for those charges.

You may pay with cash or credit/debit/FSA/HSA card at the time of service. Checks may be accepted on an individual basis for established patients. If a check is returned by your financial institution for any reason, a fee of $25 will be charged and future payments must be made by cash or credit/debit card. If you choose to pay with cash, please have the exact amount.

You will be required to leave a confidential credit card on file that may be billed for services provided outside the office, like clinical phone calls/messages through the portal. Your credit card is used to secure payment in the case that there is a no-show/late cancellation/returned check fee. A test transaction may occur to verify the card on file is active prior to your appointment. If for any reason the card is rejected, your appointment may be cancelled and may not be rescheduled.

You are responsible for fees from credit card companies, collection agencies or banks due to non-sufficient funds, payment disputes, or non-payment of fees. Please notify us if there is any change in your payment information or if any problem arises in your ability to make payments. Overdue accounts may be referred to collection agencies as a last resort.

Fees are subject to change and reflect the complexity and type of service(s) provided. You will be notified thirty days in advance of any changes in our fees.

Basic Fees:

Consultation appointment (45-90 min): $350
Short follow-up appointment (25 min): $175
Long follow-up appointment (40 min): $250
Extended follow-up appointment (55 min): $300
Psychotherapy appointment (55 min): $220
Psychotherapy appointment (40 min): $165
![Text content as per request is provided here, including all the services and their respective costs, as well as additional explanations regarding billing practices and fees.](Image)
Medical Record Requests, Letter, and Forms:

We will try to complete all work during our scheduled sessions. It may occasionally be necessary for us to charge on a prorated basis for professional services that require extensive time commitment such as report/letter writing, completing forms, telephone conversations lasting longer than 5 minutes, and consultations with other professionals that you have requested.

Medical records requested for the patient’s own use carry a charge and may be provided in the form of a treatment summary at the discretion of the physician and if you are in agreement. Parts of your record that could potentially be detrimental to your psychological well-being may be withheld. Insurance does not cover these fees. Please allow for at least two weeks for processing of records/letters/forms requests.

Record Fee:

To cover the costs incurred in handling, copying, and mailing medical records to the patient or the patient's designated representative the maximum fee for each request shall be seventy-five cents (75¢) per page for the first 25 pages, fifty cents (50¢) per page for pages 26 through 100, and twenty-five cents (25¢) for each page in excess of 100 pages, provided that the health care provider may impose a minimum fee of up to ten dollars ($10.00), inclusive of copying costs for sending medical records for the patient or the patient’s designated representative.

If requested by the patient or the patient's designated representative, nothing herein shall limit a reasonable professional fee charged by a physician for the review and preparation of a narrative summary of the patient's medical record. This section shall only apply with respect to liability claims for personal injury, and claims for social security disability, except that charges for medical records and reports related to claims under Article 1 of Chapter 97 of the General Statutes shall be governed by the fees established by the North Carolina Industrial Commission pursuant to G.S. 97-26.1. This section shall not apply to Department of Health and Human Services Disability Determination Services requests for copies of medical records made on behalf of an applicant for Social Security or Supplemental Security Income disability. (1993, c. 529, s. 4.3; 1993 (Reg. Sess., 1994), c. 679, s. 5.5; 1995 (Reg. Sess., 1996), c. 742, s. 36; 1997-443, ss. 11.3, 11A.118(b).)
Medication Refills/Medication Disclosures:

At your appointment, you will be provided with enough medication until your next recommended follow-up visit. When medications are first prescribed, patients are generally seen more frequently, and then less frequently as stability is achieved. The frequency is determined at the most recent visit with the physician. Medications are refilled only for patients who are active in treatment. The longest interval between visits is typically three months. Even if you are stable on your medication, an evaluation of your progress needs to take place.

If you cancel or reschedule your appointment, it is your responsibility to contact your physician if you need additional medication until your next visit. Medications may not be given if you cancel or no-show regardless of the dangers associated with abrupt discontinuation if the doctor feels a clinical evaluation is necessary prior to a refill. Medications may cause life-threatening withdrawal symptoms when not taken as prescribed, or if abruptly stopped. It is the responsibility of the patient to make follow-up appointments at the recommended interval.

You must tell every doctor and pharmacist every medication you are taking so you do not harm yourself and do not break the law. This includes over-the-counter medications, vitamins, and supplements.

Typically, the physicians at EBH do not co-manage psychiatric conditions with other prescribers. Therefore, it is expected that you only receive psychiatric medications through your physician at EBH while you are under his or her care. If you obtain psychiatric medications through another provider it will be assumed you have transferred your care.

If you require additional medication before your next appointment, please contact the clinic as soon as possible. Please allow up to 3 business days to process refill requests for non-controlled medications and 5 business days for controlled substances. Refills are not processed after business hours, on weekends, or holidays. Please review the holiday schedule posted on the website. A refill in advance of an appointment takes time to coordinate and requires documentation. During your appointment, you will be given enough
medication to last until your next appointment. However, if you miss or cancel a scheduled appointment and require a medication refill before your next visit a charge may apply for this service.

Before contacting the clinic, please call the pharmacy directly to ensure that you do not have any additional refills on file, possibly under a different prescription. ***We do not respond to pharmacy-generated automated refill requests.*** If you need a refill of your medication and there is not one on file at the pharmacy, please contact the clinic.

If you fail to schedule and/or you have not been seen you for 90 days your file will be formally closed and the physician will no longer be your psychiatrist of record, unless plans have been made to the contrary. Once your chart is closed you will no longer be considered a patient and no further care/refills will be provided.

**Laboratory Studies/Additional Testing:**

At times, laboratory studies may be required. Please be aware that the cost of laboratory work is not included in your visit charge and is your responsibility. Completion of necessary lab work may be required prior to initiating or continuing medication.

In addition, you may be referred to psychological testing if warranted which may incur additional costs.

**Confidentiality:**

Any confidential information disclosed during treatment, or any other confidential information we obtain while attending to you professionally, shall be held in confidence unless you permit us to disclose such information or where we are required to disclose such information by law. Some examples include, but are not limited to the following:

- child/elder/vulnerable person abuse
- imminent threat of danger to oneself or others
- court order/subpoena
- if a mental illness prevents you from providing for your own basic needs such as food, water, shelter, we will be required to disclose information in order to seek hospitalization.

- if there is reasonable degree of certainty that a patient cannot operate a motor vehicle or heavy machinery due to epilepsy, dementia, TBI or any other cognitive dysfunction.

Should you choose to submit a super bill for reimbursement for treatment from your insurance company or if you are using your insurance to pay for treatment, it may be necessary to communicate details of your care with them. By signing this contract, you are agreeing to the disclosure of confidential information where such disclosure is necessary to obtain certification, authorization, payment, transfer of care, etc... for your treatment. In order for your treatment to be covered, we may be required to periodically communicate details of your condition and treatment.

By signing this contract, you are agreeing to the disclosure of confidential information to other physicians, providers, or therapists involved in your case, where your physician decides it is clinically appropriate to do so. This includes the provider who referred you for care if applicable. Similarly, if we refer you to another physician within Envision Behavioral Health for treatment, that provider will have access to your records and may communicate with your previous physician. In addition, covering providers will have access to your clinical information should you require care while your physician is out of the office.

Please be aware that the audio or video recording of any session is not permitted secondary to therapeutic and privacy issues. If an unauthorized recording is made, it is grounds for immediate termination of the therapeutic relationship.

Mental Health Records:

Medical records are required by law. EBH currently uses an electronic health record (EHR) to record and store patient information. This EHR system is secure and also abides by the HIPAA laws/regulations. However, as with all electronic
systems, there are factors that are sometimes outside of our control. We will always strive to ensure your information is kept confidential and compliant with HIPPA regulations. We reserve the right to change electronic health record systems at any time.

**The Practice Status:**

At Envision Behavioral Health your records will be accessed by your current physician as well as covering providers (who are not always other EBH providers). If you are referred to another community therapist/physician, it may be helpful to collaborate and coordinate your care. Any clinician to whom you are referred will be responsible for the care they provide to you. Please note, however, that although we attempt to identify top quality professionals with very high standards of care, we cannot be responsible for the services/treatment that they provide. It is always your responsibility to determine if a professional referral is acceptable, and alternative options will be considered.

**Consumer Etiquette:**

Disrespectful/abusive behavior or harassment towards office staff or physicians will not be tolerated and patients will be immediately terminated from the practice should this occur.

**Fraternization:**

It is important that your doctor has a professional and therapeutic relationship with you and, therefore, not any other type of social or personal relationship. If you feel there is a strong pre-existing relationship (friend, family, etc.) that may affect your decisions, you should consider seeking care from another psychiatrist. If you feel that you do not have any other practical treatment alternative, this must be discussed and agreed to before engaging in active treatment. Further, there is never room for a romantic relationship between patient and physician/psychotherapist.
**Discontinuation of Treatment:**

The physician may discontinue treatment with a patient usually for one of the following reasons:

- Non-payment of your account.
- Canceling/missing appointments too often.
- Non-compliance with treatment recommendations.
- Withdrawal of treatment is necessary due to medical, financial, or legal problems or geographic relocation.
- Lack of attendance and/or motivation prevents further progress toward goal achievement.
- Inappropriate behavior relative to self, staff or other clients (i.e. threatening and/or intimidating behaviors)
- Modification of medications prescribed by your physician is made by patient without first consulting the physician or a covering physician.
- Obtaining psychiatric medications from another prescriber.
- Failure to comply with the provisions of the Policies and Procedures as stated in this document.
- Successful completion of the treatment program initially agreed upon, implying that the patient has made significant progress toward meeting treatment goals.
- Patient chooses to terminate treatment.

If you foresee problems in any of these areas, please let your physician know your concerns. If you decide to discontinue treatment, you can do so at any time in person, by phone, or in writing.

In the event that you discontinue treatment without notifying your physician, it will be assumed that your therapeutic relationship with him or her terminated **90 days after your last visit**, unless you have an appointment scheduled for a future date, beyond which EBH carries no further responsibility for your care. You may re-enter treatment with your physician at EBH as long as your treatment ended in good standing and he/she is accepting new patients.

Thank you for reading through this important information. We look forward to working with you.
CHANGES TO THIS NOTICE:

We reserve the right to change this notice. We reserve the right to make the revised notice effective for medical information we already have about you as well as any information we receive in the future. This Agreement shall not be amended except by written instrument executed by both parties hereto. Should any provision of this Agreement be declared void or ineffective by virtue of any state or federal statute or regulation, or decision of any court or regulatory authority, such declaration shall not invalidate any of the provisions of this Agreement that otherwise remain in full force and effect.

By signing below, you certify that you have read and understand the terms stated in this Policies and Procedures Treatment Consent Form. You agree to abide by the terms stated above throughout the course of the professional relationship.
